

JL 型彈簧式避震器安裝說明

JL spring isolator installation guide

安裝前，請確認避震器之型號規格是否正確。

Before installation, make sure the model and the specification are correct.

安裝說明

Installation guide

- 所需工具：公制口徑17mm (M10) 開口扳手、爪式千斤頂。

Required tools: 17mm(M10) open wrench and claw jack.

- 可先行放置與避震器高度相同的臨時木台於設備安裝處，再安裝設備。(如圖1)

Place the wooden panel with the same height as the mounts on the installation before installing (Fig 1).

- 將避震器放置於與設備的正確安裝位置。(如圖2)

Place the mounts on the installation location (Fig 2).

- 使用基礎螺栓將避震器固定於地面基礎上。(如圖3))

Fasten the mounts with foundation bolt on the ground (Fig 3).

- 以M10固定螺栓將避震器與設備固定，略為鎖固。(如圖4)

Fasten the mounts and the equipment with M10 fixed bolt without locking them (Fig 4).

- 使用爪式千斤頂將設備下之臨時木台取出，取出後避震器即會受力下壓。(如圖5)

Apply claw jack to remove the wooden panel beneath the equipment to press down the mounts (Fig 5).

JL spring isolator installation guide

安裝說明

Installation guide

- 將M10固定螺栓確實與設備鎖緊，即完成避震器之安裝調整。(如圖6)

After the adjustment, lock the mounts with M10 fixed bolt (Fig 6).

- 安裝後請檢查彈簧之下壓量，安裝完成後之避震器高度若低於50mm，應予更換較大荷重之規格，並請洽本公司業務人員。

Check the press amount of the spring after the installation. If the height of the mounts appears less than 50mm, please replace with bigger loading by contacting our staff.

- 安裝時，請注意安全。

Be cautious during the installation.

安裝完成後避震器高度若低於50mm為超重現象，請更換型號

If the height of the mounts is less than 50mm after the installation, please replace with another model.

※保養點檢項目：每月觀察固定螺栓&基礎螺栓保持鎖固、保持避震器安裝狀態&彈簧下壓撓度正常。

Maintenance checking points: remain fixed bolt and foundation bolt locked, installation of the mounts, and the deflection of the spring monthly.
